关于我们 >>

佛山市恒泰技术有限公司位于广东省佛山市南海区狮山镇，致力于陶瓷喷墨机配件生产和技术服务。公司秉承以产品齐全、服务高效、质量优先、性价比高的宗旨，深耕陶瓷喷墨机配件研发和生产多年，公司产品和服务得到国内外客户的信赖和好评。

公司打造了一支专业技术团队，熟悉各种喷墨机的性能且可以熟练操作，同时对喷墨机的各类板卡、喷头均可以维修、检测，可以完全做到资源循环利用，给陶瓷厂节省最大的成本。

专业，是我们的根本；服务，是我们的优势；实惠，是我们的能力。

HENG TAI

BROCHURE

Foshan Hengtai Technology Co., Ltd., located in the Shishan Town, Nanhai District, Foshan City, Guangdong Province, is committed to the production of ceramic printing machine spare parts and technical service. The company adheres to the principle of complete products, efficient service, quality priority, cost-effective performance, developing ceramic printing machine spare parts for many years, which receives the trust and the good reputation from customers at home and abroad.

Hengtai is organized by a professional technical team, all of whom is familiar with the performance of various printing machines and is skilled at operation. Besides, the company offers repair and cleaning service of all kinds of board card and print head, which can fully achieve resource recycling, so as to save the maximum cost to the ceramic factory.

Professional is our fundamental; service is our advantage; affordability is our ability.

High frequency ink shaker

1. 三大清洗功能，彻底解决打印头堵孔，斜喷等问题，确保清洗无死角。
2. 可清洗多种打印头。赛尔、星光、精工1536、理光、柯尼卡、东芝等。
3. 简洁的操作界面，使技术人员更容易地使用本机器。
4. 选用大流量的齿轮泵，流量更大压力感应装置，压力更稳定。
5. 真正的内循环清洗，确保打印头不受外界的二次污染。
6. 微电脑智能保护喷头系统，机器恒温控制，双重保护装置，避免过高温度造成打印头的损害。

1. Three cleaning functions: completely solve the problems of print head plugging, oblique spraying and so on, to ensure that there is no dead angle in cleaning.
2. It can wash a variety of print heads, such as XAAR, DIMATIX, SEIKO 1536, RICOH, KONICA, TOSHIBA, etc.
3. Simple operation interface makes it easier for technicians to operate the machine.
4. Gear pump with large flow is used, and the pressure is more stable.
5. Internal circulation cleaning to ensure that the print head is not subject to the secondary pollution by the outside environment.
6. Micro-computer intelligent protection print head system; machine constant temperature control; dual protection device; it can avoid the damage to the print head caused by too high temperature.
